Average annual procurement spend

>31million

Average annual work-hours

100 year

Track record

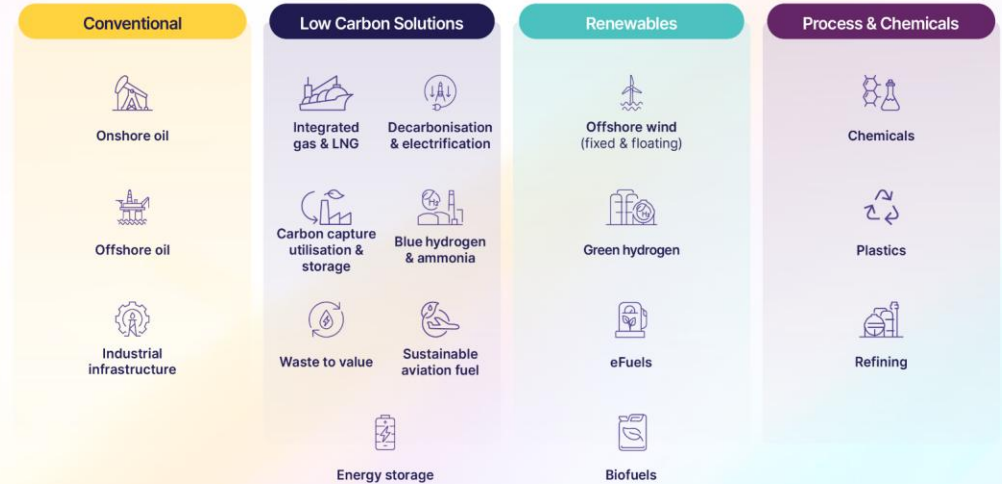

34 offices

Across 26 countries

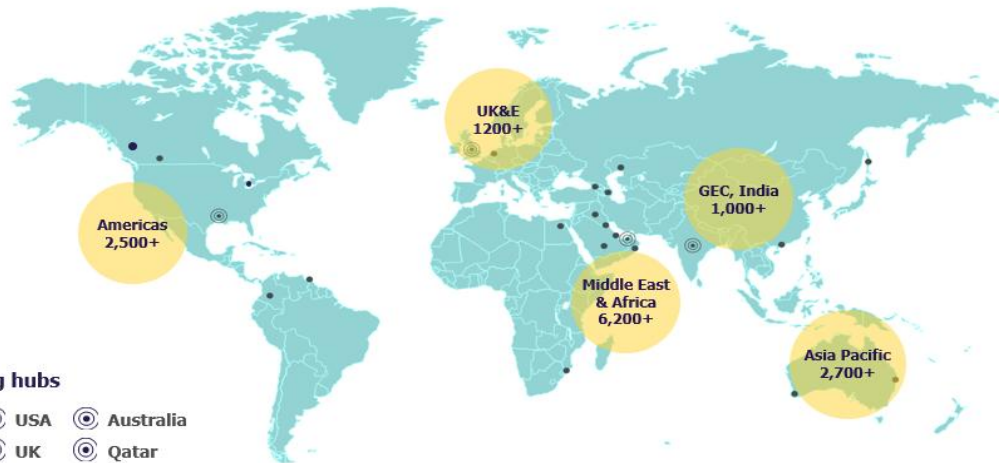

Working across the energy industry spectrum

Our Markets

With projects executed in 80+ countries, we have a truly global footprint supported by global engineering hubs

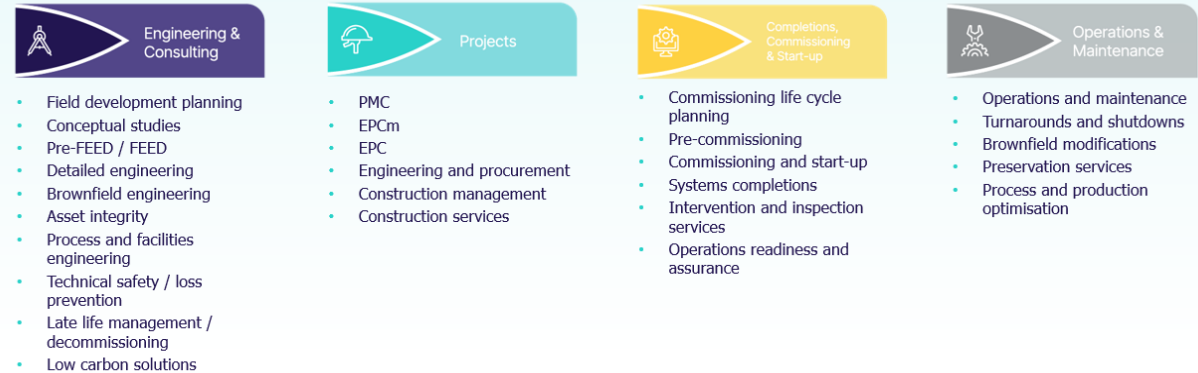

Engineering hubs

- India
- USA
- Australia
- UAE
- UK
- Qatar

Global Technical Network supported by Global Leadership Sponsors

80+ Global Subject Matter Experts

Leading integrated energy services provider across the asset lifecycle

Digital

- Visualisation
- Data integration
- Digital twin
- Asset management
- Immersive training
- Analytics and artificial intelligence

Supported by:

- Latest technology
- Expert training
- Smart and efficient work practices
- Developing local talent
